VOL. XXII, NO. 121

GAINESVILLE, FLORIDA, WEDNESDAY, JUNE 28, 1905

TEN CENTS A WEEK

ROOSEVELT WILL NAME THE DATE

Both Countries Have Agreed
Upon Representatives.

EVERYTHING IS NOW FAVORABLE

The Question of An Armistice Remains
In Abeyance, Japan Even Declining
to Take Up the Matter—Rains Are
Falling in Manchuria.

St. Petersburg, June 27.—Both Japan and Russia are now understood to have agreed on the time when their plenipotentiaries shall meet at Washington. It will be during the first ten days of August, but the exact date probably will be announced by President Roosevelt.

The question of precedence evidently is the main stumbling block to a prompt settlement of the number of personal negotiations. Both sides seem desirous to make the other take the initial move. Russia seems to consider that it is Japan's duty to name her plenipotentiaries before Russia announces hers. While the exact number of plenipotentiaries has not been officially arranged, both powers seem to have tacitly agreed on three. The actual announcement of the names of the plenipotentiaries is expected within a few days. The official statement of the situation is:

"All is going on favorably."

The question of a possible armistice as stated last week, remains in abeyance for the moment, Japan, it is understood declining even to take the matter up until the issues involved in the Washington meeting are definitely settled. In the meantime there have been heavy downpours in Manchuria and the rainy season may enforce a suspension of military operations before the diplomats can act.

M. Nelidoff, the Russian ambassador to Paris, and Baron Rosen, the new Russian ambassador to Washington are Russia's tentative selections of plenipotentiaries. Mr. Takahira, the Japanese minister here, it is understood, has been selected by his government as one of the plenipotentiaries but the name of the ranking Japanese envoy cannot be learned. It is not believed that Marquis Ito will be able to come, and it is possible that Field Marshal Yamagata may take his place. This information comes from a high source, but it is understood that no formal announcement can be made until it is learned whether M. Nelidoff's health will permit him to make the trip here.

We're Not Living Too Fast.

Chicago, June 27.—Susan B. Anthony, now in Chicago on her way to the annual meeting of the National American Woman's Suffrage association, beginning in Portland, Ore., on June 29, expressed optimistic views of America life and progress. "I don't think Americans are living too fast," she said. "The eager, ambitious, keen, striving life of the United States is but an indication of the youth and vitality of the country. We wanted to beat England in running fast trains—well, we've done it."

Witnessed Wife's Suicide.

Dayton, O., June 27.—Mrs. Henry Neiter, whose husband is employed at a bottling works, went to her husband's place of employment and taking a position in an alley directly under a window from which her husband witnessed her act, drank the contents of a phial of carbolic acid. The deed was committed before her agonized husband could interfere. The motive is unknown. The woman died shortly after reaching a hospital.

Rebels Defeat Germans.

Capetown, Cape Colony, June 27.—The rebel leader Marengo has attacked and defeated a German force commanded by Captains Seibert at Amos in the Karas mountains, German Southwest Africa. All the German ammunition and supplies were carried off by the rebels. The losses are reported to have been heavy.

TWENTY-TWO CADETS DROWN.

Danish Training Ship Rammed by a
British Steamer.

Copenhagen, Denmark, June 27.—A serious disaster occurred last night near here when the Danish cadet training schooner Gorgestage was rammed and sunk by the British steamer Ancona.

The Gorgestage sank in one minute and a half. Twenty-two cadets were drowned and 57 rescued.

The boys were all in their bunks at the time of the disaster. The night was overcast, but it was not so dark that objects could not be seen at some distance. The Ancona was considerably damaged along her water line.

The port authorities have placed an embargo on the Ancona which will remain here until the inquiry into the collision is completed. Thus far only a single body has been recovered by the divers who have gone down to the wreck.

The Gorgestage was a schooner of 28 tons register, and was 103 feet long. Apparently she was a training vessel for the mercantile marine and was owned by a private firm of Copenhagen.

VICEROY CURZON MAY RESIGN.

Ruler of British India Does Not Ap-
prove of New Law.

Simla, June 27.—It is freely rumored that the viceroy, Lord Curzon, of Kedleston, has either already tendered his resignation or shortly will do so, in consequence of the decision of the home government whereby Lord Kitchener, commander in chief of the forces in India, has been given complete control of the army in India.

The two special meetings of the Indian council have been held since the publication in London of the Blue Book referring to Lord Kitchener's plans, the approval of which is considered to be a severe blow to Lord Curzon, since he and practically the whole council unanimously advised against the decision ultimately adopted.

The keenest excitement prevails in official circles here. The Times of India, declares that India cannot afford to lose "either of the great men, Lord Curzon or Lord Kitchener, who dominate her affairs."

Will Discard Sixteen-Inch Gun.

New York, June 27.—The ordinance exports of the United States are said to have practically decided that the 16-inch gun, from which so much was expected, is not practicable for a weapon and a decision by the war department to abandon the type is anticipated. Only one of these guns has been so far made, and that one is now at Sandy Hook. The experiments, while showing that the guns could do all that was expected of it in one way have nevertheless convinced the experts that as a weapon it is too costly. Colonel Greer, of the Ordnance department of the east, said that while it had not been decided to discard the gun now at Sandy Hook, it was likely in his opinion that the government would never have another made.

Riksdag To Consider Separation.

Stockholm, June 27.—As a result of the negotiations between the different groups of the Riksdag it has been arranged that a special committee to consider the Swedish-Norwegian situation shall be appointed to consist of nine Conservatives and three moderates from the first chamber and five liberals and five agriculturalists and two reformers from the second chamber. It is anticipated that the government's proposal to settle the crisis amicably by arranging a modus vivendi between the two countries will be violently attacked in the upper chamber and generally supported in the lower chamber during the debate tomorrow on the subject.

Snake Frightens Girl to Death.

Manitowoc, Wis., June 27.—Frightened into convulsions when she accidentally stepped on a snake which lay coiled up in the grass, Calla Huebner, the 12-year-old daughter of Mr. and Mrs. William Huebner, living north of this city, died here. The reptile was not a venomous one and her death ensued from fright and not from a bite.

RUSSIAN POLAND IN THROES OF REVOLT

Cities of Warsaw and Lodz Under
Martial Law.

BUSINESS IS AT A STANDSTILL

Victims of Friday's Riot Reach Five
Hundred and Sixty-One Dead, and
Over Seven Hundred Wounded—
Further Trouble Feared.

Warsaw, Russian Poland, June 25—2:25 p. m.—The Jewish districts are now in full revolt. The shops and the stores are closed, and traffic has become stagnant. The street cars have been operated to form a nucleus for barricades.

Great crowds are assembling in the streets, and the ugly temper of both the populace and the troops threatens to break out in bloodshed at any moment.

Thirty-four battalions of infantry are stationed in the town.

A bomb was thrown last night under a carriage occupied by the chief of police, K. M. Pavloff, of the town of Czenstochowa, government of Piotrkow. The chief of police and seven other persons were seriously wounded.

The city has the appearance of a military encampment. Infantry and Cossacks are bivouacked in the streets and patrols are circulating everywhere. The shops largely are closed, but cabs and cars are still running.

Barricades have been erected at the corner of Ogrodowa and Zelazna streets, and occasionally the crack of a rifle is heard as strikers shoot at men going to work.

General Maximovitch, the governor-general of Warsaw was appointed on March 5. He is a former Hetman or chief of the Don Cossacks. On March 30 an imperial rescript was issued urging Maximovitch to elaborate police reforms. On April 3, the governor general summoned the editors of the Warsaw papers to the castle and talked to them freely and in the most friendly manner, especially on the question of censorship inviting them to come in case of any difficulty.

The next day Maximovitch prohibited the sale of revolvers, pistols and cartridges throughout the whole territory under his administration. A plot to assassinate the governor general was discovered in the middle of April, and soon afterwards it was reported that he had tendered his resignation, but had been prevailed upon to retain office. On May 19 a bomb doubtless intended for the governor general was exploded in Miodowa street at noon, killing its possessor, a workman, and two detectives and injuring 33 persons including three women, one student and two schoolboys.

Many threats had been made against the governor general principally since the May day disturbances.

State of Siege at Lodz.

Lodz, June 27.—The governor general has proclaimed a state of siege at Lodz.

The victims of last week's outbreak totaled over 1,200. Thus far the bodies of 243 Jews and 218 Christians have been buried. The wounded number over 700. Some semblance of order has been restored and the workmen are gradually returning to the factories.

Attack Governor's Palace.

Kyvo, Russia, June 27.—A mob of a thousand persons surrounded and attacked the police station and the governor general's palace today. All the windows were broken before the rioters were overpowered by the police. Five policemen were wounded. A detachment of dragoons finally arrived on the scene and scattered the rioters.

Flames Fanned by Gale.

Cleveland, June 27.—Fanned by a stiff northwest gale a fire which broke out shortly before 1 o'clock this morning in the building occupied by the Willard storage battery company in the center of the wholesale district in St. Clair street, caused a loss of \$100,000.

000. The Willard Manufacturing company's building was gutted and the upper floors of the Fairbanks-Morse & Co.'s warehouse were destroyed. The roof of the Ferd. Brick & Co.'s building, south of the Fairbanks-Morse & Co.'s building in Water street, was on fire and sparks were being carried to other adjacent property when a terrific thunder storm intervened and checked the blaze. At 3 o'clock this morning the first was under control.

THROWN FROM MOVING CAR.

Switchman Dashed to Death in View
Pleasure-Seekers.

Chicago, June 27.—In view of several hundred pleasure seekers Charles Worthmiller, a switchman has been thrown from a rapidly moving car of the Scenic Railway at South Side pleasure resort, falling to the ground 50 feet below. He died soon afterward at the emergency hospital. When the scenic train departed down the incline high in the air, Worthmiller and a companion were seated in the front of the car. As the car was being elevated to the depot Worthmiller stood up. He was warned of the danger but heeded to the caution. When the car started on its trip down the steep incline, running at a rate of 75 miles a hour, the man waved his arms and shouted. The next instant the car rounded up a curve. The jolt caused Worthmiller to lose his balance. He threw his arms out to catch himself and as he did so struck one of the posts. He was thrown from the car head foremost. When he was picked up Worthmiller was unconscious. He had landed on his head, fracturing his skull.

OHIO DEMOCRATS TO MEET.

Will Nominate Candidate for Governor
and Other Officers.

Columbus, O., June 27.—Although the actual business of the Ohio Democratic convention does not begin until Wednesday morning the fact that the districts are to organize on Tuesday that the conventions committees have been called to meet Tuesday night before the convention itself has been called to order and that there is a lively contest on for the leading place on the ticket brought visitors and delegates to the city several days in advance.

John C. Welty, of Canton, expresses the utmost confidence in the result of the contest for governor. Only one thing seems assured today in that connection, and that is the probability of no choice on the first ballot. The votes for favorite sons of whom eight or ten are in the field, will reduce the likelihood of an early choice, and the present problem is the ultimate destination of this part of the vote.

The friends of John M. Pattison, of Clermont county, expressed confidence of their candidate's victory on the second or third ballot.

To Reclaim Aid Lands.

Neno, Nev., June 27.—The first great step in reclaiming the arid section of Nevada, which will go far toward the wealth and improvement of the state has been taken with the opening of the headgates of the Truckee river diversion canal, located about 2 miles west of Derby. Mrs. Francis G. Newlands broke a bottle of champagne over the headgates. The members of the congressional committee, including five out of the seventeen who drafted the national reclamation act; the lieutenant governor of Nevada, the governor of California, the distinguished body of citizens and legislators turned the cranks, the headgates lifted and the water from the high Sierra rushed through the canal to the thirsty grounds of the Nevada desert.

Mob After Negro Assassin.

Decatur, Ala., June 27.—A street duel occurred at Leighton. C. W. Wright, former tax assessor of Lawrence county who was shot by Frank Daniels, a negro, died late Sunday. Bloodhounds followed Daniels' trail until it was lost in a swamp 6 miles from Leighton. Every effort is being made to locate the negro, but has failed up to this time. Great excitement prevails at Leighton, and if the negro is caught he will be lynched. A party of about 200 men from this city went to Leighton.

MAY CALL OUT ALL CHICAGO TEAMSTERS

This Is What Is Being Discuss-
ed In Windy City.

CONSERVATIVES OPPOSE PLAN

Hopes, However, Are Still Entertained
of a Peaceful Solution of the Strike.
If Radicals Control, 25,000 Men Will
Be Idle.

Chicago, June 27.—Steps to be taken today by the conservative leaders in the teamsters' ranks were expected effectually to check a growing sentiment among the more radical element in favor of a general strike of all teamsters in Chicago to encourage a prompt ending of the existing struggle, either by accepting the employers' terms or calling off the strike.

At present the main portion of the teamsters' army is intact, only 4,000 out of 27,000 being on strike. A general attack upon employers, it was declared, could result only in general disorder and disorganization and a call for the militia.

Meetings will be held tonight by the department store drivers and the railway and express drivers to vote on the question of accepting the peace terms of the employers. According to H. C. Cook, chairman of the peace committee of the teamsters' joint council, a favorable vote by these two locals would mean an end of the strike, as the other unions would follow. The terms are practically the same as were offered three weeks ago. Some changes in the phraseology have been made at the request of the teamsters' committee. One alteration, it is understood, was in the article concerning the wearing of union buttons in order to have it made clear that no employer objects to the wearing of union buttons provided they are not exposed.

WILL VISIT AMERICAN CITIES.

Delegates of Women Workers' League
of Great Britain Here.

New York, June 27.—Fifty delegates representing the Women Workers' League of Great Britain and Ireland are expected to arrive here within a few days for a tour of the leading American cities. The delegation comprises women who have worked with the Countess of Warwick in endeavoring to better conditions among English among English working women.

They are coming to make a careful study of the conditions here and ascertain if there are any features of environment or method here which may be adopted with advantage to their sex in Great Britain. There are special delegates for all occupations. Trade unionism will have but little to do with the visit. As now planned, the delegation will spend about five days in New York and the remainder of their time in other large cities. They have planned to go as far west as St. Louis.

Race Riot in Indiana.

Vincennes, Ind., June 27.—City Marshal Combs, George Hells, A. S. Combs and an unknown negro who escaped, are more or less seriously wounded by bullets as a result of a race war which took place at Lawrenceville, a hamlet 5 miles west of this city, during a carnival. George Goins, whose act of slapping a white man, precipitated the conflict, and who narrowly escaped lynching by an angry crowd, which had erected a gallows before it was dispersed, is in jail here. The unknown negro, who fled, is known to have been shot several times, but the extent of his injuries is unknown.

Woman Cannot Stop Crying.

St. Paul, June 27.—Mrs. Kate Wilbourn of Sioux City, Iowa, voluntarily presented herself to the board of insanity commissioners and asked to be committed to the state asylum as a result of four days' incessant and uncontrollable weeping. Otherwise she is perfectly sane but cannot stop crying. She hopes the hospital physicians can relieve her.
